

# System 750™

ISO 9001  
Certified

## Advanced Ambulance Control System

# Got Power?

## *Let's Manage It!*

The TST System 750™ manages power distribution from the chassis throughout the rear ambulance module. Every System 750™ installation is supported by our experts in vehicle power management systems. Contact your TST representative to learn more about how the System 750™ can fit into your next ambulance design.

### **FEATURES:**

- ❖ 30-amp replaceable relays
- ❖ Programmable flexibility and expandability, supports multiple control panels
- ❖ Built-in diagnostics
- ❖ Emergency Master Sequencing
- ❖ Load Management
- ❖ Automatic climate and throttle control
- ❖ Programmable Load Manager
- ❖ Checkout light system
- ❖ Personalized backlit logo option
- ❖ Low “key-off” current draw
- ❖ Programmable configuration
